DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 9/3/2008 has been entered.

Allowable Subject Matter

Claims 1-6, 20 are allowed.

The combined references of Roese, Baird, Wright, and Karch do not teach "interrogating a list of one or more corporate policies associated with a given user and a physical device, the policy data being acquired locally from the physical device or dynamically via access to a corporate network, each corporate policy prohibiting or restricting access to corporate data in a non-trusted environment; determining a location of the physical device; determining whether the user and the physical device is in a trusted or non-trusted environment by comparing the determined location of the physical device with a list of trusted locations, the list of trusted locations being embedded within

the policy data or stored separately; providing access to a subscription-based service that maintains an organization list of individuals and machine identification information indicating that a listed individual or machine is associated with a predetermined organization; determining that an individual or machine identified on the list associated with a competitive organization is within a predetermined proximity of the physical device, and in response thereto, transmitting an alert to the physical device; and enforcing a plurality of rules contained in the corporate policy for managing the presentation of sensitive content by blocking a visual presentation or audible presentation of at least one object in portions of the presentation if the physical device is not located in a trusted location or if an individual or a machine identified on the competitive organization list is within a predetermined proximity of the physical device."

Claims 2-6, 20 are dependent on Claim 1 and are allowable for at least the same reason.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
